~~\$1100 USD~~

Description

The Professional Diploma in Environmental Health is a comprehensive nine-month program designed to equip participants with the knowledge and competencies necessary to work in environmental health practice and research. The program is structured into three sub-programs: Basic, Intermediate, and Advanced, each building on the previous one to provide a thorough understanding of environmental health.

Objectives

By the end of this course, participants will be able to:

1. Identify, prevent, control, and manage environmental hazards to protect health.
2. Conduct research in the field of environmental health.
